it is no wonder so many good people are opposed to the laguor traffic if you would but assertain the cause you would soon learn why. Many of the so-called "cranks" who are suffering from indigestion and kindred complaints have tried, by advice of their physicians, to get and use good Whiskey or Wine, and have received no benefit from it on account of igetting inferior and impure grades. Then they denounce both liquors the physicians. But some, have learned that FUHE liquors will bely them. Mouth, but the Wellsburg People Have Decided to Defer the Celebration Until the Spring of '97-The Wellsburg Council Has Already Appointed a Committee. Other Bodies will Join.

The centennial anniversary of the formation of Brooke county is on Monday, just a week from to-day. Early in the fall it was thought that a celebra-tion would take place, but on account of the short time it has been decided to postpone the celebration until next spring, which will be an appropriate time, as it was in the spring of 1797 that the first court was held in Brooke.

Mr. G. B. Crawford, president of the Wellsburg town council, speaking of the proposed celebration, says that the council has already appointed a celebration committee, and at to-day's meeting of the Brooke county court that body will appoint a committee which will act in conjunction with the which will act in conjunction with the committee of council. The court will also probably take the initiatory steps toward the celebration by fixing the date and making an outline of the celebration, which is proposed to be on an elaborate scale.

A number of the Brooke county citizens are talking of forming a historical society, which is a move in the right direction.

WITH THE RAILROADS.

The Royal Blue Line trains on the Baltimore & Ohio railroad between Washington and Philadelphia have attraced considerable attention by reason of the rapid time they make and the beauty of the equipment. No effort has been made to break any speed records, yet within the past two or three weeks some very creditable performances have been made by the new Baldwin engines, ten of which were recently purchased for service upon these trains. The schedule time between Washington and Philadelphia is fifty-three miles per hour and the maximum obtained is seventy-five per hour, the latter speed being only maintained for short distances, and in most cases when engineers are attempting to make up short distances, and in most cases when engineers are attempting to make up lost time. Probably the best performance of the month was on November 15. Train 507 (the Chicago limited), with engine 1,308, hauling eleven cars, the entire train, with the exception of three cars, being vestibuled, left Camden Station, Baltimore, at 7:04 p. m., and arrived in Washington at 7:52 p. m., being a run of forty miles in forty-eight minutes.

The new Royal Blue trains on the Baltimore & Ohio raliroad from Pittsburgh to Cincinnati have been furnished with uniformed train porters, whose duty it will be to pay especial attention to the comfort of ladies and children.

A new Pintsch gas plant is being erected at Pittsburgh for the benefit of the Baltimore & Ohio railroad, which has adopted this light for its passenger trains.

AMUSEMENTS.

This evening the Vitascope Company pens a three night's engagement in the Opera House, with a matinee on Wednesday. Theatre-goers are curious over this attraction of which so much has been written, and Colonel Riester will no doubt have a successful half

will no doubt have a successful half week of it at his house. This invention has already been described in Intelligencer. It has been called an endarged Kinetoscope, because it works somewhat on the principle of that machine, but in the case of the latter one must look into it to see reproductions of pictures, about three inches in size, whereas, in the case of the Vitascope these same pictures are thrown through a lens and appear on a screen magnified six hundred diameters. Moreover, the Vitascope reproduces all the colors of a picture. Says the New York Herald: The Vitascope was the seventh number on the

Says the New York Herald: The Vit-ascope was the seventh number on the programme, and it was nearly 10 o'clock when it was reached. The house was packed, and as picture after pic-ture was thrown on the screen the applause was tremendous.

The first picture shown was that of

The first picture shown was that of two dancers. It seemed as though they were actually on the stage, so natural was the dance, with its many and graceful motions. Next came a picture of a tumbling surf on the Jersey shore. The waves were high and bolsterous as they dashed after one another in their rush for the sandy jeach, over which they ebbed and flowed. The white crests of the waves and the huge volume of water were true to life. Only the roar of the surf was needed to make the illusion perfect.

"The Monroe Doctrine" was the title of the next picture. At first John Bull

of the next picture. At first John Bull was shown bombarding a South Amer-ican shore, supposed to represent Ven-czuela. John was getting the better of czuela. John was getting the better of the argument when the tall, lank figure of Uncle Sam emerged from the back of the picture. He grasped John Bull by the neck, forced him to his knees and made him take off his hat to Venezuela. This delighted the audience, and applause and cheers rang through the house, while somebody cried, "Hurrah for Edison."

The "skirt dance" was the last picture shown, and its success equalled that of the others. When the dancer disappeared from view there was a long burst of applause, and everybody agreed that the Vitascope was "wonderful."

WHEELING TALK.

and Saying.

At the corner of Sixteenth and Chap-line streets, just opposite the city build-ing, Mr. Robert Teasdale has carried on for the last seven years, an exten-sive ice and coal brainess. This has brought him in contact with a host of Wheeling people, so that in repeating what he said to our representative, who recently interviewed him the reader has not to waste time perusing the opinions of an unknown. What he says is from a citizen, one of oursays is from a citizen, one of ourselves. Read his statement: "The
pains in my back, generally of a dull,
heavy mature, was located just over
the kidneys. When I attempted to do
'any lifting or stooping, sharp twinges
shot through me and I have been so
bad that I could scarcely get around.
In getting up and down I had to observe the greatest care unless I wished
to incur excruciating pangs. I felt
pretty well other ways only I could
not trust my back. Both of my sons
had been complaining of their backs
hurting them and when I got a box of
Doan's Kidney Pills at the Logan Drug
Company, they also took some and in
each of our cases the result was the
same, the pain left almost at once. Our
back felt stronger and more robust.
We can honestly recommend Doan's
Kidney Pills to anyone suffering with
their kidneys."

What Doan's Kidney Pills have done
for others, they will do for you. They
are sold for 50 cents a box. If your
dealer doesn't keep them, write us.

NEW YORK, Nov. 21.—To-day's brief session was dominated by the bears, who directed special pressure against the granger group. The recent unfavorable gross returns published and the predictions of continued light exhibits, for some time to come, based upon the decreased movement of grain were the arguments advanced in favor of lower prices. Liquidation was evident in some instances and checked a tendency toward improvement in other properties. Some of the low priced figured in the decline, notably Reading, Missouri Pacific and Tennessee Coal. Decided weakness was also apparent in a few of the usually inactive stocks, on very light dealings, however. The bank statement was exceptionally favorable, showing for instance an increase of \$21,37,000 in deposit, but, in view of the decidedly easier monetary conditions, exerted no appreciable influence upon prices. The closposit, but, in view of the declared easiest monetary conditions, exerted no appre-ciable influence upon prices. The clos-ing was at the lowest of the day at ne-concessions, averaging a point. The total sales of stocks to-day were 112,112 shares.
